

ment of English, who told the members that the faculty had decided to suspend the morning lectures and that the whole student body would be present in the college chapel to hear him. It was decided that the club, which embraces about 150 members, be present in a body to-night at the Auditorium.

The officers of the Richmond College Wilson Club are as follows: G. V. McManaway, president; E. C. Primm, vice-president; R. A. Fife, secretary; Executive Committee—J. W. Decker, R. C. Duval and H. R. Bekker. It had been the intention of Governor Wilson and his party to leave Richmond to-night at the conclusion of his address, but this part of the program has been changed, and he will not leave until to-morrow morning at 9 o'clock. He will spend the night at the Jefferson.

In reply to the invitation recently extended to Governor Wilson by the Council of the city of Richmond, by joint resolution, the following letter was received yesterday by City Clerk Ben T. August:

State of New Jersey,
Executive Department.

My Dear Sir—Allow me to acknowledge with deep appreciation the receipt of your letter of January 26, inclosing the invitation in which the Council of the city of Richmond, the Board of Aldermen concurring, do me the great honor of inviting me to deliver an address before the Council of the city of Richmond and citizens of said city at some time in the near future. I am happy to say that it has been possible for me to arrange to be in Richmond on the evening of February 1, and wish to express through you my very deep appreciation of the pleasure with which I look forward to my visit. Very sincerely yours,
WOODROW WILSON.

ABSOLUTE DENIAL MADE BY U. S. STEEL

(Continued from first page.)

now held by a multitude of small investors in this and foreign countries.

Too Late for Action.

The defendants then submit: "That after acquiescing in the organization of the Steel Corporation for so long a time and after rights of so sacred a character have grown up thereunder, it is now too late for the government to insist in a court of equity that such organization was in itself and without regard to its after practices an illegal thing."

The answer further declares that the proposition to purchase a majority of the stock of the Tennessee Coal and Iron Company came from Grant B. Schley, and was taken up on account only on account of the representations made on behalf of said Schley that nothing but such purchase would save Moore & Schley from failure. Messrs. Gary and Frick, of the Steel Corporation, went to see the President of the United States on November 4, 1907, and laid the situation before him. The answer denies that Messrs. Gary and Frick failed to disclose to the President all the facts bearing upon the proposed purchase or the occasion for making the same, which were pertinent thereto, or that they made any misstatement or misleading statement of any sort or character to the President regarding the financial situation in New York or regarding the wishes or actions of themselves or the Steel Corporation with respect to the proposed purchase. It admits that the President stated that he did not feel it to be his duty to prevent the proposed transaction, and say that in reliance upon said statement Messrs. Gary and Frick returned to New York, whereupon the purchase was completed. The answer denies that the Tennessee Coal and Iron Company was a strong present or probable future competitor of the Steel Corporation at the time of its acquisition by the latter.

Encourages Competition.
The answer says that "continuously since the organization of the Steel Corporation it has been the declared and consistently followed policy of said corporation to encourage rather than to restrain the utmost freedom of trade and commerce; to refrain from acts of oppression or injustice to the competitors of said corporation; to abstain from efforts to harass such competitors or to exclude them from their fair share of interstate or foreign commerce, and to take no steps intended or calculated to prevent the growth of other and further competition, and that such policy has been well known throughout the industry and to the public generally and the government since the organization of the Steel Corporation."

Referring to the meetings of the steel manufacturers, familiarly known as the "Gary dinners," the answer says that at none of these dinners "was there any attempt to reach any agreement or understanding with respect to the output of prices, or anything said or done which was calculated or intended to suppress competition or restrain trade, and there never was nor is there now any such agreement or understanding."

The concluding portion of the answer is as follows: "The delay in the wool bill is due to the appropriation measures," said Mr. Underwood. "It will probably be March before we get a bill before the House. We have a voluminous report to digest and much to consider before."

Father, Mother, Sister, Brother, All Should Use Parisian Sage.

Prevents Baldness—Banishes Dandruff—Stops Falling Hair and Itching Scalp

PARISIAN SAGE is a family hair tonic and dressing that will do much good in every home.

The man who uses PARISIAN SAGE will only occasionally go bald. Baldness is caused by dandruff germs which dig down into the roots of the hair, deprive it of nourishment and cause the root to die and the hair to fall and thin out.

PARISIAN SAGE is a scientific hair remedy that not only kills the dandruff germs, but gives the hair root just the same nourishment that nature gives it. PARISIAN SAGE first kills the germs; then nourishes the hair root and causes a growth of healthy hair. This same nourishment (AKI) AN SAGE causes the hair to grow vigorous,

We never advertise the name of a manufacturer for the simple reason that we pay for our goods and our advertising.

Each season we buy the best cloths produced and have them made up into the best styles for our customers.

We are not restricted or restrained by any manufacturer.

This gives our customers the surety of always finding the best at our store—the best suits made to sell at \$18 and the most luxurious at \$40.

This month as we clear up our stock, for the opening of the spring season, we shall close out our present wearables at a big reduction from regular prices. Our daily advertisements will keep you posted.

To-day a special sale on neckwear and trousers.

C. H. Derry

submitting the bill to Democratic caucus.

Seek Heavy Reduction.
Washington, January 31.—A reduction of approximately 30 per cent. in the express rates of the country, it developed to-day, is the real desire of the shipping interests. The inquiry of the Interstate Commerce Commission. Testimony of shippers indicated that this was the motive behind the inquiry.

Several witnesses deprecating shippers were examined, their testimony being largely technical. Charles A. Stickle, of St. Paul, Minn., declared he paid 50 cents for the express transportation of advertising plates of five pounds or under, while a rival association paid only 25 cents for similar service. C. W. Hillman, of Cincinnati, declared that Wells-Fargo & Co. made a profit on omnibus rates and interstate business of 41.54 per cent.

Henry C. Bartow, of the Chicago Chamber of Commerce, and the Chicago Board of Commerce, suggested reduced rates, the average reduction being from \$3.67 a hundred pounds to \$2.85. The proposed reduction would amount to about two and a half times the first-class freight rate.

Attorney Frank Lyon, of the Interstate Commerce Commission, discussed the work of the commission's investigators during the last six or eight months. The figures indicated that between 1907 and 1910, the increase of express revenues to the railroads was 181 per cent; while the increase of freight revenues was 132 per cent, the increase of passenger revenue 108 per cent, and the increase of mail revenue 72 per cent in the same period the increase in the population of the country was only 33 per cent.

ASHLAND NEWS NOTES
Ashland, Va., January 31.—T. Leitich Lancaster has been appointed demonstrator for Hanover county by T. O. Sandy, State agent for farm demonstration work.

Mrs. Frank Day is visiting her sister, Mrs. Frank Muller, at her home in the Green Spring Valley, near Baltimore.

Miss Katherine Kent is the guest of relatives in Richmond.

Misses Millie Gardner and May Hankins, of Chicago, are guests of Mrs. Miles H. Gardner.

Miss India Thomas, of Richmond, will be the guest of Miss Alice Paine for the week-end.

Miss Stuart Blanton entertained the sewing club this afternoon.

"If it had come to a veto," said he, "it would have been defeated. So far as a rate that has never been approached by any important legislation in the history of the American Congress."

May Have Public Hearings.
Washington, January 31.—The House Democrats may choose their procedure of formulating new tariff bills when consideration of the woolen schedule is reached. Chairman Underwood, of the Ways and Means Committee, said to-day it was possible that public hearings would be held. The Democrats have no hearings on tariff matters during the present Congress.

The delay in the wool bill is due to the appropriation measures," said Mr. Underwood. "It will probably be March before we get a bill before the House. We have a voluminous report to digest and much to consider before."

Thousands are wasting time, losing hair and growing bald because they are using superficial tonics. While they may clean the scalp and make it feel refreshed, they do not get to the root of the hair where the real destroyer of hair, the pernicious dandruff germs, thrives and multiplies.

Try PARISIAN SAGE for all hair trouble; it means death to the germs; life to the hair. It is pleasant to use and so harmless that it can be used by every member of the family from the oldest to the little tot.

Get a 50-cent bottle to-day, and if you are not satisfied that it is just as good as claimed, your money back without any quibbling. Sold by Tragle Drug Co. and druggists everywhere. Girl with Auburn hair on every carton and bottle.

Mrs. H. S. Ladew is visiting relatives in Baltimore. Miss Edith White was the week-end guest of Miss Peachy Fleet. The Matinee Euchre Card Club was delightfully entertained by Miss Annie Dowell this afternoon. Six-hand euchre was played, and Madames John Addison and Overton Howard won the prizes. Those playing were Madames Harrison, Anna Carr, John Addison, Overton Howard, Robert Carlton, E. W. Newman, George Morris, Hill Carter, Jr., McDowell, J. R. Radick, Moran Shepherd, Frank White, Misses Carolyn Harsh, Augusta Dizon and Sarah Cardwell.

The Ashland Music Club met at the Henry Clay Inn this morning with Mrs. Hand. A program of local and Chopin numbers was rendered, which did credit to those participating. Several visitors were present and a most delightful morning was spent. The hostess invited the club to be her guests on the night of February 9, at which time a program of local and Richmond talent will be given. Each member of the club is tendered the privilege of bringing a guest for this occasion.

LEAP YEAR SUGGESTIONS

Mayor Gaynor Hands Some Hints to Schoolgirls.

New York, January 31.—Leap year possibilities and their proper time for egg sales were among topics discussed by Mayor Gaynor in an address to-day before 150 girls of the senior class in a public school.

The tidy woman who knows how to sing a little, and dance a little, and jump through the hoop a little, and knows how to cook—she is the woman worth having," said the Mayor.

Other excerpts from his advice to the girls: "Look as pretty as you can." "Learn how to write a nice gossip letter." "Don't trouble yourself about the future. You will come out all right."

The Mayor was shown an exhibition of cooking that some of the fourteen-year-old girls had done, and he asked them how long it would take them to cook him an egg. "Six minutes," one girl answered, and the Mayor fled in dismay.

PREACHER TRIES TO DIE

Rev. H. H. Fairall Slashes His Throat With Razor.

Iowa City, January 3.—The Rev. H. H. Fairall, editor of the Iowa Methodist, a monthly publication, and founder of the Clear Lake Methodist Conference, attempted suicide here to-day. His injuries probably will prove fatal.

Dr. Fairall slashed his throat with a razor. Three weeks ago the minister was attacked by an affliction of the eyes, threatening blindness.

GOVERNMENT WILL TAKE PART IN CORN SHOW

(Special to The Times-Dispatch.)

Washington, January 31.—Upon the request of persons in Columbia, S. C., that he see Secretary Wilson, of the Department of Agriculture, regarding the matter of making the National Corn Show, to be held in that city next January, a success in every way and to secure the government's cooperation, Congressman Lever to-day took up the matter with Secretary Wilson. As a result of this conference it was announced that the Department of Agriculture would co-operate and that everything possible would be done to make the show a success. An exhibit

will be made. However, on the advice of Secretary Wilson, Mr. Lever introduced a resolution authorizing the department to take part in order that there might be no question of the right to do so.

Academy Will Be Rebuilt.

(Special to The Times-Dispatch.)

Lynchburg, Va., January 31.—Money sufficient has been subscribed for the restoration of the Academy of Music, which was burned April 29, and work will be started as soon as the contract can be let. The house will again be under the management of Jake Wells, who was the lessee prior to the fire.

Returning Cardinal Greeted by Thousands

WILLIAM CARDINAL O'CONNELL.

Boston, Mass., January 31.—Bringing expressions of paternal affection and love for the American people, non-Catholics as well as Catholics, His Eminence William Cardinal O'Connell returned from Rome to-day as the first prince of the church to return in New England.

Despite severe winter conditions, more than 100,000 people lined the streets to welcome him, and he was escorted by a procession of many Catholic societies to his home in Back Bay District.

When the steamer Canopic, which brought him back, pushed her way up to quarantine at dawn to-day, a little detachment, headed by Bishop Anderson, of Boston, Mayor Fitzgerald and Edwin V. Curtis, collector of the port, boarded the steamer and extended the first greetings.

It was in reply to the Mayor that the cardinal made known the feeling of the Pope toward America. To the people in this country, the cardinal said, the Roman Pontiff looks for consolation, and for them he has such a regard that he considers there are many non-Catholics here who are better than some of the Catholics in Europe.

To-morrow, from his golden throne, the cardinal will witness the celebration of the solemn pontifical mass of thanksgiving, at which Bishop John J. Nolan, of Hartford, will officiate, and Bishop Anderson, of Boston, will deliver the sermon.

If You Eat You Need "Digestit"

The New Relief For Indigestion.

It has been stated that more than eighty million people in the United States are victims of some form of indigestion. The American people do not take time enough to eat. The result is stomach distress, gas, belching, indigestion and dyspepsia.

"Digestit" is the new relief—it has been found a certain quick and permanent remedy. Thousands of people have found relief from its use. Their own statements on file in our office are proof. You can try it for yours if

DEBILITY CURSE OF 20th CENTURY

High State of Civilization Has Greatly Debilitated Modern Nations.

A celebrated Austrian physician, Dr. L. J. Schat, was the first to announce that a high state of civilization had debilitated modern nations. His claim that half the population are suffering from nervous debility produced by the strain under which we live has finally been admitted by physicians throughout the world.

In recent years a tonic has been introduced in leading European cities to help build up the countless numbers of run-down, nervous, debilitated people produced by modern life, and the results have been remarkable. To-day in the chief cities of Europe thousands have renewed their health through the use of this tonic. The action of the medicine is very rapid, good effects being obtained from it in only a few moments' time.

A company has been formed to put a similar medicine upon the American market. The preparation is called "Tona Vita" in the United States.

Specialists have been employed to meet the public at the Polk Miller Drug Co., No. 834 East Main Street, from 9 A. M. to 8 P. M. These specialists will demonstrate the action of the medicine to all who call during these hours, and will attempt to show that the new tonic will prove its remarkable properties in five minutes' time. The specialists will give a free trial of the medicine to the first five hundred callers.

The general symptoms of debility are irregular appetite, poor digestion, headache, backache, constipation, poor memory, nervousness, physical and mental depression and a general low state of health. The common expression for this condition is "all run down." In such cases the tonic acts with remarkable rapidity.

European physicians are well acquainted with the results accomplished by the tonic, and are aware of its coming introduction in this country. Dr. James Spoyer, of London, England, says in this connection: "If the United States has escaped having a large percentage of its urban population in poor physical condition, owing to debility, I will be greatly surprised. It seems certain the same methods of living that have produced this condition to such a great extent in England and the continent have had a like effect in the United States."
